STONY PLAIN ANNUAL SPORTS

Big Crowd Visited Western Town
Yesterday and Enjoyed an Inter-
esting Program.

The annual celebration of the village of Stony Plain was held yesterday and was a big success. The weather was ideal, a fair sample of Sunny Alberta's best and the town was crowded all day long with a merry crowd of pleasure seekers and friends. The day was more than a success, it was a triumph. The number from Edmonton was not as large as was expected but this was more than offset by the number coming from the other towns. There were over 200 persons, coming from as far west as Wabamun, while Spruce Grove, Pine Ridge, Ingle, Newell and Golden Spoke were out en masse. The town had a big day, a big crowd, and everything happy.

It would be pretty hard to get a more varied and interesting program than the Stony Plain produced yesterday. There were the canoe races, the tennis and polo, the German, the Pennsylvania Dutch, the Polish, the Italian, the French, the English, the Canadian, and so on to the very last. The program of sports, while not as extensive as some bigger cities, was carried out in a thoroughly professional manner. Much praise is due the individuals who made the day so enjoyable. Brown, Ward, McCallum and Hunter.

The forenoon program consisted of a baseball match between the Spikes and the Stony Plain Inter-club. The Stony Plain Inter-club won by a close margin of 12 to 10.

The track events were carried out on the main street of the town. The committee proposed having a track laid out just south of the town and next year will see some good trotting and running events.

The greatest interest centered in the quarter mile race. Seven good horses entered the race. The winner was Sandy B. Beale, Buckskin, and Nellie. Woods, riding Beale, was thrown at the turn of the first lap and badly shaken up although not injured. The second place was won by Baby, left while leading in the third heat and thereby lost the race. The fourth was won by Betty, who had been hurt. She came up smiling and happy.

Shooting, ridden by Beale, won two out of three, while Lily, won second place in an extra heat. The 200 yd. was won by Betty, a good shot. The 100 yd. was won by Betty, a good shot. The 50 yd. was won by Betty, a good shot.

The 100 yd. dash was won by Betty, a good shot. The 50 yd. was won by Betty, a good shot. The 25 yd. was won by Betty, a good shot. The 10 yd. was won by Betty, a good shot.

LETHBRIDGE SHOWERS

Improve Crop Conditions and Farmers Are Glad.

Lethbridge, Alta., July 7.—Two hours' rain yesterday was just what the country needed. Some farmers even stated that the cooler recent weather is sufficient to last until harvest and will put the grain in good shape. All grain is coming along fine.

John Charles Murphy was in the city today for a few hours. Interest in the land sales continues and high prices are prevailing. Land south of Dray Lake and Bow Island sold as high as \$14.

The recent cool strike made, more than the usual price for corn for the power plant during the three months of the strike. The Hillcrest mine is not working owing to a dispute between the mine and the company over pillar work. The case has been referred to Rev. H. E. Grant, chairman of the recent coal board. Nearly all the miners are back at the other mines.

PASSENGER TRAIN UP SET IN RIVER

Passengers Taken Ashore From Up-
Turned Cars in Boats—Great
Floods and Wrecks.

St. Louis, July 7.—Rain fell steadily all last night and today and continues tonight in Missouri's flooded district and railroad officials report the tide is rising. The water is rising in the past quarter of a century. In 24 hours up to six feet. This evening, four inches of rain fell. The water is rising in the past quarter of a century. EDMONTON, ALBERTA, THURSDAY, JULY 6, 1900

THE CROPS

Winnipeg, July 6.—Rains which have been fairly general throughout the Prairies during the past 24 hours have provided a welcome relief from the excessive heat of the past few days and the farmers will be glad to see the cooler weather promised as there is every reason to believe that late grain on light lands has been somewhat damaged by the sun.

Speaking generally, however, spring wheat continues to hold its very favorable percentage of average condition for the time of the year and this is especially so in most of Saskatchewan and Alberta, where the crop is satisfactory.

Having been concluded from a week to ten days earlier than in the last year, the grain is in better condition than in the last year. The grain is in better condition than in the last year. The grain is in better condition than in the last year.

C. & E. EXPRESS LEFT THE RAILS

Narrow Escape for Passengers
Coming From Calgary Yesterday Morning.

Among the passengers on yesterday morning's train from Calgary that was wrecked about a mile and a half north of Inisfail was Superintendent McLean, of the city waterworks system, who was visiting in Calgary. Mr. McLean was near the worst of the narrow escape and it is about there that the express train was wrecked.

Speaking of the accident to a Bulletin reporter, the superintendent of the train was riding along at about twenty-five miles an hour when suddenly the train jumped and in an instant it was plain to see that something was wrong. For about a minute it was in a state of confusion and then it came to a halt.

CHAMBERLAIN'S BIRTHDAY

London, July 7.—In view of Joseph Chamberlain's 72nd birthday tomorrow, the numerous congratulatory messages are already reaching Austin Chamberlain at Albert Hall to be forwarded to his father, from public bodies and others, from New Zealand, Australia, South Africa, Hong Kong, and the remotest corners of the empire, noting the remarkable progress of the empire.

Chamberlain's initiative and earnestness in his efforts to achieve the best of his countrymen, Chamberlain himself must spend the day quietly in his Birmingham home under the tender care of his wife.

COLD STORAGE PROJECT REVIVED

Daily Commissioner Will Visit the
City Next Week in Connection
With the Scheme.

When H. G. Niven, of the Dominion Produce Co., returns from his early next week, it is expected that he will be in a position to present a proposition to the Edmonton city council for the erection of public cold storage plants. The establishment of the plants for a large cold storage plant which were drawn up about two years ago for the late T. C. Williamson, who was greatly interested in this question. STRATHCONA NEWS

PAVING OF WHYTE AVENUE.

The question as to whether it is advisable to pave the four blocks of Whyte avenue this year, was decided upon some time ago by the council. It is still being debated by many of the citizens. The great difficulty in the way is due to the fact that the service connections for water and sewers are only being put in now, and many anticipate that the sinking of the earth in the rolled trenches will injure the pavement. The British Columbia company, who have the paving contract, state that the trenches can be reinforced, but this will be at additional cost and even then it is thought by many that the reinforcement will not wholly protect the pavement.

Mayor Duggan has expressed himself as decided opposed to the paving this year for the above stated reasons, but some of the aldermen are determined that the work shall be done at once.

The City of Edmonton has been given notice that it is the intention to start the paving by the 20th of July and the street railway department will then be asked to do their part. This will include double tracking of the four blocks and the paving between the rails and eight inches at the outside ends. The railway department is not compelled to put in iron poles, as was at first thought, and it has not yet been decided whether iron or the old wooden poles will be used.

LOCALS.

Arthur Ritchie, who has been attending college in Toronto during the past two years, has returned to Strathcona on a visit to his parents, Mr. and Mrs. Robert Ritchie.

The examinations for standards VI, VII, and VIII, will be concluded in Strathcona today. There are about twenty pupils in all taking the papers in VI, VII, and VIII, and one in VIII.

The teaching of standard VIII, in Strathcona has been transferred to the University.

The new bandstand is now completed and ready for use. It is probable that the first band concert of the season will be given on Friday night or early next week. The band attended the celebration at Stony Plain yesterday.

Excellent progress is being made on the erection of the new brick house for Mr. McGuire, at the corner of Fifth street east and Third avenue north. The walls are all up and the structure is now being put on the frame.

It is probable that in the course of a few days a crossing will be put in over the C.P.R. at Second avenue north, instead of First avenue north, as at first spoken of. The former is the crossing preferred by the C.P.R. superintendent, and as it is being completed by the city, it is being free will it must be placed where they request.

A union basket picnic will be held on J. Martin's grove, near Rabbit Hill, on Wednesday, July 14th. A good program of sports has been provided and a prize will be given for the best cake made by any of the ladies.

Strathcona, Orangetown, with the Strathcona Band, expect to attend the Orange celebration in Leduc on Monday. The celebration is in the form of a picnic and a prize will be given for the best cake made by any of the ladies.

Dr. McIntyre, M.P., went to Leduc last evening on a business trip.

On account of the accident on the C.P.R. at Innisfail yesterday morning, the train due at four o'clock did not reach the city until after midnight.

Mr. and Mrs. H. F. Sundeman have gone to Gull Lake, where they will spend a few weeks' holidays.

Mr. Chief of Police Meahan has accepted a position in Fitzgerald's wholesale liquor store.

COLD STORAGE PROJECT REVIVED

(Continued from Page 1)

that and expect it to be a reasonable profit.

Local Farmers' Views.
F. Whaley, East Clover bar, is one of the many farmers of the Edmonton district who is producing more butter than he can dispose of to his regular customers. Mr. Whaley delivers about 20 pounds of butter per week to Edmonton residents and for this he has a summer rate of 25 cents per lb. and a winter rate of 30 cents per lb.

"I can get for my surplus product now," said Mr. Whaley, "in 15 cents per lb. less than I receive from my regular customers."

"How would a cold storage plant better conditions?" Mr. Whaley was asked.

"If there was a public cold storage in Edmonton," said Mr. Whaley, "I could store my surplus butter at a cost of a cent a pound until next winter, when I could get a better price for it. Cold storage facilities would mean more uniformity in supply and prices for my round. The producer and the consumer would both gain in this arrangement. The producer is not very encouraging for increased production."

Buying on Export Basis.
The Edmonton Produce Co., which does an extensive trade with local dealers all over the Edmonton district, is now buying for an export market for the first time in two years. The local production is greatly in excess of the demand and as there are no storage facilities here the butter has to be sent to outside points and to the Montreal market for cold country shipments. It appears that no more than 15 cents per pound can be paid

for this butter in Edmonton and leave any profit for the shipper.

The egg market in Edmonton is such that car loads of eggs are being shipped to outside points in the summer at low export prices and car loads are being brought in during the winter time at high import prices. This causes a great fluctuation in the price of eggs in the city.

The result is that the local supply has been curtailed to such an extent that prices have taken a rise. If it were not for the export trade eggs would be very cheap in Edmonton at the present time. Dealers express the opinion that if there were cold storage facilities in Edmonton eggs would show a greater uniformity in the quotations and in the supply for local consumption throughout the year.

Potatoes the Same.
The same holds true of potatoes. During the past winter prices were very high owing to the waste occasioned by farmers not having proper storage facilities. Potato prices would still be high to the local consumer if it were not for the heavy shipments from the west.

It is held by fruit dealers that the price of fruit could be greatly reduced by the establishment of a cold storage plant. Apples and other perishable goods could be secured at reasonable prices when they are in season and could be stored in Edmonton for use the year round. At present the consumer pays for the risk which the dealer takes in the importation of his stock of fruit.

Bonded Warehouse.
The management of the cold storage plant would count on running a bonded warehouse as well. This would enable the small dealer to get accommodation at the bank on the strength of goods which he has in bond. In this way there would be a free transaction of business on a better competitive basis.

A great impetus has been given to the question of general cold storage for the great centres of population, by the movement which has been set on foot for the establishment of the oldest meat industry in western Canada. It is felt that what the establishment of chilled meat stations will mean for the betterment of market conditions in the live stock industry, local cold storage plants will mean for the general improvement of the conditions under which farmers bring their smaller produce to market.

Injured in Regina Mill.
Regina, Sask., July 7.—David Long, live in a precarious state at the Grey Nuns' Hospital with a broken back sustained by a fall through a trap door at Colquhoun's planing mill. It is not thought he can recover.

LOSING MONEY

By Operating Small Elevators at the Lake Head.

Ontario, July 7.—The decision not to make the contemplated order that all switches must be six feet from the tracks of railways in Canada was reached today by the railway commission.

The Grand Trunk company pointed out that it would have to move every rail along its system and that it was at a distance of five feet four inches from the tracks. Objection was also taken to the proposed order by other railways, and the commission finally decided not to pass the contemplated order provided for dwarf switches if six foot switches could not be installed, but the railways pointed out that those small switches carry no lights, and the men easily fall over them, thus increasing the number of accidents. The whole order was set aside.

The railway commission today discussed the application of the Dominion Millers' association and the Manitoba Grain Growers' association, which asked that elevator and other rates charged by the C. P. R. at Fort William and Port Arthur be reduced to the same scale as those at Owen Sound and other lake ports.

Some time ago the C. P. R. imposed one-quarter of a cent per bushel extra charge ostensibly to cover the cost of insurance. The company did not formerly insure grain, but now does. Complainers pointed out, however, that the extra charge far more than covered the cost of insurance, which asked that elevator and other rates charged by the C. P. R. at Fort William and Port Arthur be reduced to the same scale as those at Owen Sound and other lake ports.

It does this more conveniently than the hot water boiler, because it has no radiators to take up room, congregate dust and rust the pipes and woodwork.

It does this more hygienically than the boiler because pure air is admitted to the furnace through a cold air pipe.

What Sunshine furnace does

Sunshine Furnace is designed and constructed to heat a house, church, school or store, and does this more satisfactorily than any other known furnace or other style of heating apparatus. It does this more rapidly than the hot water boiler because, as soon as fire is started in Sunshine Furnace, heated air can be obtained for the rooms.

SUNSHINE FURNACE

It does this more conveniently than the hot water boiler, because it has no radiators to take up room, congregate dust and rust the pipes and woodwork.

It does this more hygienically than the boiler because pure air is admitted to the furnace through a cold air pipe.

SPORTING NEWS

BASEBALL.

EDMONTON WINS FROM THE HAT. The Edmonton team, which has been playing a very even contest in the north, today won a timely hit of Burridge's, which broke the tie from the first inning by scoring Moran. The rest of the team played as well as the first, and the game was a close one. The Edmonton team played as well as the first, and the game was a close one. The Edmonton team played as well as the first, and the game was a close one.

Grady was on the mound for Edmonton and pitched in better form than any of his previous games here. He has been steadily improving and with a little more speed will be as good as any of the Edmonton team.

The game opened rather slowly but soon settled down to steady ball. Each side made two runs in the first inning. The Edmonton team led in the first inning, but the other team soon caught up.

Wilson, the first of the Edmonton team, was the first to get on base. He was hit by a pitch from the other team, and then he was hit by a pitch from the other team.

CALLES WIN FIRST
CHAMPIONSHIP GAME

Team Wins Evenly Matched Than 2-2 Would Indicate—Three Gives Unsettled Decision on Final Kick.

Calgary, June 7.—The St. George's, winners of "A" division of the City League, met the Calles, winners of "B" division, in the first game for the City League cup.

The game was a close one, with both teams showing their strongest possible efforts. St. George's won the toss and Tod kicked off for the sun for the Calles.

In the first few minutes Parish saved snarled from Mason, after ten minutes' play he had a splendid chance of scoring but missed the ball completely.

Tomkins and Jennings were playing badly on the left wing, and St. George's, Tompkins, putting in some fine centres which were not taken advantage of.

Gibson and Mason, on the right for the Calles, were putting up a fine game. Parish got several hot shots in, but did not clear well each time.

A few minutes before the interval the Calles were playing splendidly for a minor offence.

After some give and take play, Parish saved magnificently from Tod. Tompkins repeatedly brought the ball down on the left for the Calles, but could not find the net.

The Calles played St. George's half some time and from a nice pass from the left wing, St. George's half scored in the 15th minute. Parish having no chance. After this reverse, St. George's pressed, but could not get past Ross.

This proved to be all that was in the game until the end of the first half. Final score: Calles, 2 goals; St. George's, 1 goal.

The second half.

On resuming, Ross pressed in. Ross was a great stumbling block in the Calles' attack.

Parish, putting in a lot of useful headwork. Hoag missed badly when well placed. Nash did not clear well at the other end.

After some give and take play, Parish saved magnificently from Tod. Tompkins repeatedly brought the ball down on the left for the Calles, but could not find the net.

FOOTBALL.

The 1901 and All Saints football teams met tonight in their last league game. This game decides which of these teams get second place in a division, which ever team wins finishes up just one point behind the winners. It promises to be a very exciting contest. The kick-off at 7.30 sharp.

Gas Company Retaliates. Niagara Falls, Ont., July 7.—Another rise of two cents per thousand feet in the price of gas was made in the Niagara Falls area today, making the price 30 cents. This is the second increase within nine months, when the price was twenty-five cents. Possible explanation of the gas fields of the Niagara area is given as the reason of the increase, but it is freely noted that the company is getting back at the people for making the government to prevent export of gas to Buffalo.

Calles Wins First Championship Game. Team Wins Evenly Matched Than 2-2 Would Indicate—Three Gives Unsettled Decision on Final Kick.

Calgary, June 7.—The St. George's, winners of "A" division of the City League, met the Calles, winners of "B" division, in the first game for the City League cup.

The game was a close one, with both teams showing their strongest possible efforts. St. George's won the toss and Tod kicked off for the sun for the Calles.

In the first few minutes Parish saved snarled from Mason, after ten minutes' play he had a splendid chance of scoring but missed the ball completely.

Tomkins and Jennings were playing badly on the left wing, and St. George's, Tompkins, putting in some fine centres which were not taken advantage of.

Gibson and Mason, on the right for the Calles, were putting up a fine game. Parish got several hot shots in, but did not clear well each time.

A few minutes before the interval the Calles were playing splendidly for a minor offence.

After some give and take play, Parish saved magnificently from Tod. Tompkins repeatedly brought the ball down on the left for the Calles, but could not find the net.

The Calles played St. George's half some time and from a nice pass from the left wing, St. George's half scored in the 15th minute. Parish having no chance. After this reverse, St. George's pressed, but could not get past Ross.

This proved to be all that was in the game until the end of the first half. Final score: Calles, 2 goals; St. George's, 1 goal.

The second half.

On resuming, Ross pressed in. Ross was a great stumbling block in the Calles' attack.

Parish, putting in a lot of useful headwork. Hoag missed badly when well placed. Nash did not clear well at the other end.
